## NOTES FROM THE EDITOR

Hi Everyone,

Well another great UKC Premier is behind us... leaving us with lots of fond memories. This years Premier was special to me because my little Missy took the Award of Excellence this year in the 2006 Top Ten Breed Finals.

The UWSC Specialty Show went smoothly with some wonderful dogs receiving top prizes. Jean Reeve's Venus took BOB taking home that wonderful painting of a WS that Beth Crawford did for the club. Congratulations Jean!

The Annual Club Meeting went well, touching on several important subjects including our Junior Handler's presenting their awards for the Best Grand Parent Dogs and Ambassadors for the WS. We are just so proud of our Juniors!!

Following the meeting we presented Diana with Polo's Portrait, it was a very touching moment that took Diana completely by surprise! I want to take a moment to thank everyone who contributed to the portrait fund and made that gift a reality for Diana. I know it touched her deeply to know she was surrounded by so many caring friends. "Thank you".

The BBQ was a blast! It's wonderful that our club takes the effort to make time to come together & socialize with one another. This is my favorite time at Premier! I love having a chance to visit with those of you I only get to see at Premier. Dan of course out did himself on the grill again this year!! Those ribs were fantastic, Dan!! We even got to preview the photographs that Tim had taken during the weekends events on TV during our meal. Everyone seemed to enjoy that.

Sunday came to soon for this girl, as we sadly said "good bye" for another year and prepared for the long trip home, we talked along the way of the good times we had this year and planning for next year.

*Please everyone... remember to send in new titles, WS Birthdays, New Arrivals, WS brags ecc... and don't forget your photos! Thanks for supporting your UWSC Newsletter!!*

Your newsletter editor,

Scarlett

Dear Members,

Another grand Premier weekend is behind us. I am so proud of the many members that traveled, some of them long and far, to exhibit their beautiful White Shepherds to the large number of spectators that were present. Because of everyone's dedication, our breed entry was the 3<sup>rd</sup> largest overall!

Besides conformation, we had White Shepherds that also excelled in performance events and earned legs and/or titles (some with placements!) in Agility, Obedience, and Weight Pull. Most notable, one exceptional team also earned a Total Dog Award, the ultimate achievement as it demonstrates both beauty and brains. Additionally, we had several members try their hand at "Dock Diving" with Ultimate Air Dogs. I was able to watch many of our dogs perform in these events and it was truly inspiring.

And, let's not forget our Juniors, as they are our future. At Premier and throughout this year, they have done extremely well with our White Shepherds in both the Junior Showmanship and breed competitions. We are all very proud of them.

Our annual Premier weekend club meeting was held on Saturday evening. One of the highlights of the meeting was the decision to fully support the sending/sponsoring of Judy Huston to the AKC Canine Health Foundation's conference in St. Louis this upcoming October. The details surrounding this monumental event will be posted to the club's yahoo group list in the very near future. We will be seeking input from the White Shepherd community as to how we can best represent our breed by sharing the successes of the White Shepherd Genetics project in a "Poster Exhibition" format which will be shared with several hundred other all breed dog clubs. The primary goal of this conference is to learn from key speakers and other breed clubs of what responsible White Shepherd clubs and breeders can do to better breeding programs from a health and genetics point of view.

Yours for the White Shepherd,

Diana L. Updike

- Power Outage at Premier
  - UKC was constantly announcing reminders all weekend that it was hot out and our dogs needed to be checked on regularly
  - Following our later afternoon specialty show on Thursday, the area where all of our campers were parked lost power for over two hours
  - Club members were unable to find a UKC representative or maintenance man for those two hours
  - Club will proactively ask UKC to post after-hours maintenance phone number in the event a power outage should occur in future.

- Meeting was Adjourned

**Our Junior Handler's presenting Diana with their award**

At the end of the UWSC annual meeting, I was surprised beyond words at the kind, caring, sensitive, and loving gesture so many of you were a part of. The artwork presented to me of Polo's stunning headshot, so beautifully double matted and framed was more than I could emotionally handle. Yes, I openly sobbed. My friends, you touched my heart.

Honestly, this was the first year that I wasn't eager to attend the Premier. I am sure it was primarily due to the emptiness I've been feeling these past couple of months... However, shortly after arriving, I knew I needed to be there with my extended family (you!) because it felt so right.

Our United White Shepherd Club goes beyond the improvement and betterment of the breed as everyone so obviously and openly cares for and supports each other. I am so proud and fortunate to be a part of this passionate, caring family.

Thank-you so much, from my heart...

((hugs to you all))

**Dexter passes the ATTS Temperament test  
Owner: Melanie Fuellgraf**

**Dexter is looking back to the corner where the  
'stranger' came out of the trees!**

**WOOHOO!  
GO DEXTER & MELANIE!!**

Dexter took the ATTS Temperament test today and I am happy to say has passed. The test was hosted by the Golden Triangle Irish Setter club and they had quite a variety of dogs taking the test. Dexter was the only WS there, but there were 4 traditional GSD's, all very nice dogs who also passed, 3 Doberman Pinschers. One of them we knew as we train together, Presley, who passed also. 5 Am. Staffs, 4 or 5 Giant Schnauzers, a traditional Schnauzer, 2 or 3 Irish Setters, an English Setter, a Shepherd mix, and 2 smaller breed dogs.

It was a rainy day, (must be something about these tests as it was raining when I took Nikita 2 yrs ago LOL) but that did not seem to bother the dogs much. The testing started with a walk through around 8:30 and we were finished around noon. They had 25 dogs registered to take the test.

It was interesting to watch all of the dogs and what seemed to cause the most initial 'startled' reaction among the dogs was the opening of the umbrella. The scary/aggressive stranger also prompted many varied responses. It is a three phased step, where first the stranger jumps out of the woods/blind without saying anything in a non-threatening manner, then he takes a few steps forward in a threatening way , and finally he advances aggressively. In Dexter's case, when the person first came out and advanced, he alerted on the stranger and held his ground showing interest, when the stranger made the last advancement he reacted and ran out beside me and behind me but circled around and stood forward at my other side on alert. Had he not come around and stood back with me, he would have failed at that point. For the breed, his reaction to the aggressive stranger could have been stronger, but because he came back to face the stranger (and not leave me alone!) his score at that station was passable.

If anyone is interested in more detail about the test, here is a link

<http://www.atts.org/testdesc.html>

I did buy Dexter a great big bone to celebrate on the way home and he has been happily chomping all afternoon.

# HAPPY BIRTHDAY!

# UWSC WELCOMES OUR NEW MEMBERS

My name is Monica and I live in North Aurora, IL. Mike and I have been married for just about 6 years now and we have 3 kids between us, Tyler is 13, Jacob is 11 and Austyn is 9. We also have 3 furbabies that we got while married. They are "our" babies. We first got interested in the White Shepherd because Mike thought they were gorgeous and also that I wouldn't be able to find any near us....boy was he wrong. I did a bunch of research and found a wonderful breeder not 30 minutes from our house. We got Kizer at 8 weeks old on December 17, 2005. 2 weeks later Shane came along from the same breeder but he was 3 1/2 years old and then in March, Harley joined our family. So we went from 0 to 3 in 4 months. Jacob started showing Kizer on a suggestion from our breeder and found that not only did he love it, he was great at it. We spend the summer traveling to different shows and meeting a ton of wonderful people. Unfortunately we lost Kizer on October 5, 2006 to a very aggressive cancer that took over his little body in just 10 days. It still breaks our hearts today. What we went through with Kizer has inspired me to become a Vet Tech, so I am in my first semester of college for that. Our house was feeling "empty" with only 2 dogs in it, so in January of this year, Phantom, who happens to be Kizer's 1/2 brother, came into our lives, our breeder, the caring person she is, gave him to us because she felt that we didn't have Kizer nearly long enough and that Jacob should continue showing. So we are back to 3 dogs now and for now our family is complete. Jacob is showing Phantom and doing wonderful. Shane is a therapy dog and while he is afraid of gnats is a great watchdog as well. Harley is just such a loving soul and is a great obedience dog too.

Monica

## "You Were The One"

By Diana L. Updike

From the very first day my eyes laid upon you,

I knew you were destined for greatness,

Oh, how little did I know.

But, I knew It would be you,

and only you,

you would be the one.

Your bright eyes, your zest for life, your eagerness to please,

Our life Journey together,

full of teamwork, love, and fun.

And I knew It would be you,

and only you,

you had become the one.

As with those of your kind, your lifespan way too short,

It is time for us to say our good-byes,

you welgh heavy on my heart.

And, I knew It would be you,

and only you,

you are the one.

Years will go by and my life will unfold,

but you will be there, my friend, your pawprint on my very soul.

And, I knew It would be you,

and only you,

you were the one.

# UWSC Presents White Shepherd Spotlight

Venus takes BOB at the 2007 UWSC Show at Premier!  
Owner/Breeder Jean Reeves

## **RBIMBS UKC GR CH Royal Goddess of Love, HIC,CGC,PennHIP**

Venus has always been a special little girl. Even before she was a twinkle in her father's eye, I have had very large plans for this girl. Venus' father was my foundation stud dog Angus. Angus was my pride and joy, my soul mate. Never in all the years I have had dogs, has another bonded so closely to my heart as did Angus. During the time I had Angus with me, I had planned to keep one of his daughters and one of his sons to carry on the bloodline here at Royal Acres. Unfortunately, Angus left us early in his life, as the dog pack in heaven needed a spectacular friend to join them. Fortunately, I had a little part of him saved away in frozen semen storage, so that my dreams could continue.

After the loss of Angus, I began the search for the perfect combination in a brood bitch to bring back the fine qualities that I wanted. After six years of waiting and planning, we finally decided to bring the dream of new Angus puppies to life with the help of our lovely girl, Déjà vu. Deja is a daughter of Isaac, and Isaac was specifically bred to combine certain traits with Angus offspring. Though I didn't actually have Angus offspring here at my place, Isaac's contributions have still been realized with the Angus daughters in other breeding programs and granddaughters here at home. I knew the combination of Isaac's bloodline with Angus would make a wonderful match.

In July, 2005, Venus, Athena, Adonis and Zeus were all delivered into the world. They were spectacular from the beginning. Yes, we were a little prejudice, and we definitely spoiled them all a great deal, but we knew they were going to make a mark in the White Shepherd world.

**Venus as a puppy**

Plans were to keep one female and one male from the litter, placing the other two in very good homes with others that were also dedicated to the breed and willing to remain as co-owners with us. Julie Cornelius and her family were chosen to receive Athena, however, Miranda and I could not decide which male we liked the most. We thought that we would keep both for some time, and then make a decision as to which one to keep. Miranda took Adonis with her at college, and I kept Zeus here to raise with Venus. We both fell in love with each boy, and they are both still with us today.

When the puppies were about six months old, my youngest son, Greg, was looking for a new 4-H dog, so Venus became his project. They now compete in obedience, showmanship and agility together. Venus has been doing very well with all three venues and has shown promise for formal competition in the future. We also started our three youngsters in herding. They all were enthused with the prospect of being able to herd sheep, and have all earned their first leg toward a junior herding title at the 2006 AWSA national shows.

**Venus Herding**

In conformation, Venus quickly earned her UKC championship, and at the tender age of 21 months, Venus was awarded Reserve Best in Multi Breed show in LaPorte, Indiana under esteemed judge Richard Klatt.

**Venus is a conformation dog as well**

Venus came into the 2007 Premier shows with the hopes of finishing her Grand Championship, but we were not holding our breath, as there are so many extremely nice dogs entered each year at these shows. She made a great showing though, with three Champion of Champion wins and one reserve Champion of Champion. Going on to win Best of Breed at the Specialty show was something that we certainly were not expecting. The caliber of dogs this year was as good as it gets, and we are thrilled to just be a part of the events. Thanks to everyone for making this an event to remember for the rest of our lives – and Venus wishes to send her love to everyone!

**Venus... she's got it!!!**
